🖋 Professional Summary

Information Technology student at **New Cairo Technological University** with hands-on expertise in the **MERN Stack** and advanced animation libraries — **GSAP & Framer Motion**. I've shipped **7+ live projects** on Vercel spanning EdTech, Fitness, Security, and Productivity domains. Passionate about crafting seamless digital experiences with pixel-perfect UI, smooth scroll-triggered animations, and clean, maintainable React architecture. Seeking an internship or junior developer position to contribute to innovative products.

📦 Technical Skills

React.js

GSAP

Framer Motion

JavaScript (ES6+)

Node.js

Express.js

MongoDB

REST APIs

HTML5 / CSS3

Bootstrap

Git / GitHub

Vercel Deployment

Context API

React Router

Responsive Design

UI/UX Principles

Live Projects

7 deployed on Vercel

NCT System Portal

React · Framer Motion · CSS3

EdTech

[Live Demo](#) [GitHub](#)

- ▶ Comprehensive educational web portal for New Cairo Technological University managing academic services, student login systems and department showcases.
- ▶ Built high-performance, responsive UI with Framer Motion page transitions and smooth animated route flows.
- ▶ Deployed to Vercel CDN for fast global access with optimized image loading.

Infinity Gym Platform

React · GSAP · Framer Motion

Fitness

[Live Demo](#) [GitHub](#)

- ▶ Interactive fitness platform featuring live leaderboards, workout programs, trainer profiles, and subscription packages with luxury dark UI.
- ▶ Engineered complex scroll-triggered animations using GSAP ScrollTrigger and Framer Motion micro-interactions.
- ▶ Achieved smooth 60 fps animations with performance-optimized code splitting and lazy loading.

NCT VPN Framework

React · CSS3 · Cryptographic UI

Security

[Live Demo](#) [GitHub](#)

- ▶ Central network portal for the National Unified VPN Framework connecting Egyptian Technological Universities under the Ministry of Higher Education.

- ▶ Designed high-security dark cyber aesthetic with animated neon interface and multi-university access management architecture.

Maktabatyy E-Library

React · Interactive Quiz Engine · Arabic UI/UX

EdTech

[Live Demo](#) [GitHub](#)

- ▶ Feature-rich digital library platform with curated e-books across Psychology, Business, Literature & History with Arabic UI/UX support.
- ▶ Built an interactive quiz engine evaluating reader comprehension, weekly leaderboards (Al-Awael), and fast searchable category filtering.

Cryptography Security Lab

React · GSAP · Algorithms

Security

[Live Demo](#) [GitHub](#)

- ▶ Interactive cryptography platform visualising RSA & SHA-1 encryption algorithms, data privacy mechanisms, and blockchain security principles.
- ▶ Powered by advanced GSAP dynamic motion animations with a neon cyber-themed visual interface.

React Calculator & Task Manager

React · State Management · CSS3

Tools

[Calculator](#) [To-Do List](#)

- ▶ Sleek dark-themed calculator with keyboard & touch support, instant arithmetic state evaluation, and clean modular React architecture.
- ▶ Intuitive task manager with All / Active / Completed filter views, smooth transitions, and clean empty-state UI.

Education

New Cairo Technological University

Bachelor of Information Technology

 2023 – 2026 · Suez, Egypt

-  Data Structures & Algorithms
-  Database Systems (SQL & MongoDB)
-  Web Development (MERN Stack)
-  Object-Oriented Programming
-  UI/UX Design Principles
-  Network & Cybersecurity Fundamentals

Additional Strengths

-  **Languages:** Arabic (Native), English (Professional B2/C1)
-  **Teaching:** Taught programming to students aged 11–16, explaining coding concepts in a simple and engaging way
-  **Self-Learning:** Self-taught GSAP & Framer Motion to deliver production-quality animations beyond university curriculum
-  **Collaboration:** Git/GitHub feature-branch workflow, pull requests, and code review in team projects
-  **Portfolio:** 7+ live projects at zlolcoding.vercel.app
-  **Availability:** Part-time internship or full-time junior position
